Personal profile:

I am a committed and hardworking student pursuing Bachelors of Technology in Computer Science Engineering interested in Data Science and Analytics.

Summary of skills:

- Programming (Python)
 - Version Control (Git, GitHub)
 - Database (MySQL)
 - Library (Pandas, NumPy, Matplotlib, NetworkX)
-

Education:

Bachelors (*B. Tech in Computer Science Engineering*)
Jain University

2024-Present

Project:

Movie Recommendation Network

Made using Pandas, NumPy, NetworkX library of Python.

FIFA World Cup Data Analysis

Analyzed data of FIFA World cup to find the best XI teams using Pandas and Matplotlib.

Covid-19 Data Analysis

Analyzed the data of Covid-19 to find patterns of which age group was most affected by it using Pandas and Matplotlib.

Involvements & Participation:

Neuron Club

Tech team member

2025

Incpetrix Hackathon

Reached the final round.

2025

SIH Hackathon

Participated

2025
